RE: Request for Certification of Completion – Area 1  
SCE&G Fleet Maintenance Site (Congaree River)  
Columbia, South Carolina

Dear Mr. Effinger,

The State Voluntary Cleanup Program has reviewed the Request for Certification of Completion – Area 1 received by the Department on August 4, 2023. The Department conducted a final inspection of the Area 1 removal on August 7, 2023. To the extent practical, all sediment, gravel, and small rocks from the removal area has been removed. Additionally, the bedrock bottom has been pressure washed to remove to the extent practicable any remaining coal tar staining or sediment along the bedrock bottom.

This letter should serve as certification and concurrence that the removal work included in the Modified Removal Action Work Plan for Area 1 has been completed. Deconstruction of the Area 1 Cofferdam can commence.
