Hopkins, SC 29061

Re: Westinghouse Electric/Columbia Plant
Sanitary Lagoon Operable Unit Sediment Characterization Remedial Investigation
Work Plan Addendum 3 dated January 28, 2021
Richland County
Consent Agreement CA-19-02-HW
File # 51377

Dear Ms. Teague:

The South Carolina Department of Health and Environmental Control (Department) has reviewed and conditionally approves the sediment characterization work plan for the Sanitary Lagoon based on the following comments being addressed:

1. The Department requests that an additional sampling point in grid one near the input pipe be added.
2. The two duplicate samples should be collected from sample locations including the extensive sample analysis.
3. The Final Closure plan should include confirmatory sampling after the initial removal is complete. This data will be used to determine if additional removal is needed prior to closure completion.

Sincerely,

A handwritten signature in blue ink, appearing to read "Kimberly M. Kuhn".

Kimberly M. Kuhn, Project Manager
State Voluntary Cleanup Section
Division of SARR
Bureau of Land and Waste Management

A handwritten signature in black ink, appearing to read "Carolyn Moores".

Carolyn Moores, Hydrogeologist
Groundwater Protection
Division of Water Monitoring Assessment
Bureau of Water
