

## Manganese in Distribution System -- City of Denmark Drinking Water

All concentrations are in milligrams per liter (mg/L)

February 13, 2019

USEPA Secondary Maximum Contaminant Level (SMCL) is 0.05 mg/L

Red-bolded concentration indicates exceedance of USEPA SMCL (0.05 mg/L)

| Sample Date         | Sample Location                      |   |                                     |   |   |   |                                  |                                       |                                  |                                  |                                   |  |

Iron in Source Water-- City of Denmark Drinking Water

All concentrations are in milligrams per liter (mg/L)

USEPA Secondary Maximum Contaminant Level (SMCL) is 0.3 mg/L

February 13, 2019

Red-bolded concentration indicates exceedance of USEPA SMCL (0.3 mg/L)
